

## SOUP KITCHEN : 8,742 SETS OF FOOD DISTRIBUTED

In April, the re-establishment of our registration team in Kuala Lumpur was a game-changer, enabling us to register more than 150 individuals at the Medan Tuanku distribution centre and on the streets. This effort has greatly enhanced our ability to track and better meet our clients' needs. We were deeply grateful to A Good Virtues for their generous donation, which helped provide nutritious meals to those in need. Nasi Maqluba, a flavourful dish inspired by Limau Nipis, was distributed to our clients on the streets. We were equally thankful to MServe, as their support allowed us to add an extra day of service to Penang's weekly distribution—a significant boost during the Hari Raya season. However, similar to Penang, Ipoh's street distributions were affected by erratic rainfall, further compounded by a shortage of regular volunteers and food donations. Despite these challenges, our volunteers remain unwavering in their dedication to reaching out and providing essential support. We are actively seeking additional assistance to continue serving those in need. Thank you for standing with us!

## ON STREET MEDIC: 55 CASES WERE ATTENDED

A shortage of medical volunteers and erratic rainfall has also impacted our medical team's operations in Kuala Lumpur. We took the opportunity to reorganise our medical inventory, thanks to the wonderful help from the students of the Netherlands International School. Additionally, we received a much-needed boost with Dr. Chu returning to serve our Johor Bahru hub team, enabling us to conduct the much needed medical rounds on a regular basis.

## WELFARE: 16 CASES WERE ATTENDED

Our team's dedication has significantly enhanced our clients' health and well-being through coordinated efforts in managing hospital follow-ups, transportation, and communication, particularly for cataract surgeries, diabetes care, and routine check-ups. Recent highlights include assisting Mr. G with cataract treatment and the successful approval of Uncle L's monthly welfare aid application.

## FOOD BANK : 875 DRY FOOD PACKS DISTRIBUTED 34,012.21 KG SURPLUS FOOD RESCUED

Hada Labo's donation in March, followed by their support for 44 food packs in April, along with a generous RM25,000 contribution from the Mountain Martial Arts Charity, have been instrumental in enabling us to provide vital assistance to needy families registered under our care.

The recent addition of on-ground staff in Penang and Ipoh have significantly improved our ability to manage CSR initiatives and surplus food logistics, particularly in Ipoh, the hiring of a new driver has streamlined operations, enhancing efficiency in food packing and logistics.

## EMPOWERMENT: 216 TUBS AND 1,377 SETS OF COOKIES PRODUCED

Our partnership with Pokok by Brick House for the Kueh Mueh Box in conjunction with the Hari Raya celebration was a success! Through this fantastic partnership, a heartwarming tale was unfolded as batches of delicious Raya cookies made their way to eager customers, spreading joy to everyone especially our bakers.

We also joined representatives of SC Johnson on a trip to deliver their sponsored tables and chairs to Kg. Orang Asli Atok in Taman Negara, Kuala Tahan, launching the newly built classroom dedicated to our basic education programme in the process.

## EVENTS

Sean Ooi of KSK Penang represented KSK Society at a special sharing session and mock cheque presentation ceremony organised by Agilent Technologies LDA Malaysia Sdn Bhd, held at their office in Penang. We are deeply grateful for their support! Meanwhile, our Marketing Director, Justin, participated in a live radio interview on local business channel BFM, where he shared his insights on the current state of food wastage in Malaysia.
