

FOOD BANK

Surplus Collection from Pasar Borong has expanded significantly, with collection rounds now happening both in the morning and evening. This change has allowed us to deepen our outreach, ensuring that no good food goes to waste while more families receive the nourishment they need. We've strengthened our partnership with Pasar Borong Selayang, where traders and vendors continue to generously contribute their unsold yet perfectly edible surplus produce. It's a beautiful cycle of care from market to table, guided by kindness.

In just one month, we successfully rescued over 11,000 kilograms of surplus, surpassing the total amount saved in the entire first quarter. This would not have been possible without our committed volunteers, operation teams, and the selfless generosity of our sponsors and donors. From dry provisions to fresh vegetables, every item collected finds a new purpose in the hands of those who need it most. We thank each of you who play a part in this quiet but powerful movement of reducing waste and feeding hope.

EMPOWERMENT

Our April visit to the Orang Asli village was filled with meaningful encounters and memorable experiences. We distributed new and preloved clothes, handed out stationery to the children and for the first time, conducted a medical activity in the village. The trip ended with a beautiful rainbow over the Tok Batin's house, a symbol of the quiet magic that comes from community work.

These visits are more than just outreach. They are a continuous journey of learning, empowerment and trust-building with the community. Education is a fundamental right, and by showing up consistently, we ensure that each child knows they are seen and supported.

MEDIC

Our own KSK Society medic team, in collaboration with St John Ambulance Malaysia from the Kepong and Petaling Jaya chapters, delivered essential general practitioner and optometry services in communities that often go without. Despite the relentless weather, we managed to attend to a total of 233 clients in April, with 106 cases handled solely during the collaboration.

This combined effort brought vital healthcare beyond the city and into underserved areas, reaching those who might otherwise be left behind. Each person was treated with care, dignity and respect, reinforcing our belief that everyone deserves access to basic healthcare, regardless of their circumstances.

WELFARE: 8 CASES WERE ATTENDED

This month, we were happy to support Mr G through his cataract surgery, which was a success. With restored sight comes renewed confidence and the ability to engage more freely with everyday life. These are the quiet wins that define our welfare work.

SOUP KITCHEN : 5,600 MEAL SETS DISTRIBUTED

April's heavy rain and strong winds didn't stop our volunteers from showing up. Through it all, they ensured every person on the streets received a warm meal with dignity, rain or shine. We're deeply grateful to our volunteers and sponsors whose unwavering support makes this possible. Together, we stand by the belief that no one should ever go to bed hungry.

EVENTS

We began the year with renewed energy through our KSK Q1 Town Hall, held across Johor, Kuala Lumpur, Ipoh and Penang. These sessions were more than just briefings, they were heartfelt reunions with the volunteers and supporters who make our work possible. We shared our key focus areas for 2025, discussed upcoming plans, and listened closely to feedback from the ground. Each city brought its own warmth, questions and commitment, reminding us that KSK is not just an organisation, but a collective movement of people who care deeply about those in need.

Beyond the town halls, April was packed with festive and meaningful gatherings. We were honoured to join Hari Raya Open Houses hosted by KPDNKK Putrajaya, the Securities Commission, Sunway, and Anjung Singgah. These celebrations gave us the opportunity to connect with stakeholders, beneficiaries and fellow community builders in an atmosphere of joy and togetherness.

The CIMB KL Sentral Food Drive was another standout highlight. In partnership with CIMBians at CIMB Tower, we successfully collected 11,000 kilograms of dry provisions, all of which will soon be distributed to our registered beneficiaries across the Klang Valley. This initiative went beyond just gathering food – it was a strong message of solidarity with individuals and families living through food insecurity. We are deeply grateful to everyone who took part and helped extend this vital lifeline.

KSK Society is proud to be selected as an official beneficiary under the 'Run For A Reason' category at this year's Kuala Lumpur Standard Chartered Marathon. This opportunity raises awareness of our mission and encourages public support through purposeful participation.

In addition, we were invited by Hilton Kuala Lumpur to take part in their New Ways to Stay Purposeful event. This gave us a valuable opportunity to present KSK's mission and initiatives to corporate clients from across the Klang Valley. The event was a meaningful space to share stories, explore collaborations and inspire others to integrate purpose into their work and partnerships.
